

Local In House Manufacturing Of Interior / Exterior Doors & Turnkey Solutions

"Builders FirstSource (BFS) is the only true all-around building supply company in this market that has their own manufacturing capability to build interior and exterior doors," said Jason Marion (Grand Strand Market Sales Manager).

Jason Marion with Builders FirstSource

They provide installed interior doors and trim, windows and exterior doors, and turnkey framing for many of their customers.

In new home construction, which is about 98 percent of BFS's business, doors are getting bigger and offering a larger

window to the world. There has been a tendency toward larger doors – 8-foot-tall interior and exterior doors have become

common place. Large, sliding patio doors on the exterior have become increasingly popular. More builders and homeowners are requesting big, stacking units like you might see in south Florida or the West coast. These sliding patio

doors can be 3 and 4 and 5 panels or more wide, and all open up and stack on top of each other to give you a vast opening to the outside.

"It's our ability to offer value-add-type services and products that makes a difference," said Marion. "We're able to bundle up turnkey solutions for builders and other customers by offering many packages that we can install. We offer those services for lumber framing, windows, and the doors we build. There are a lot of things we can do from a turnkey perspective that make us a one-stop shop. **SEE THE BACK COVER OF THIS ISSUE FOR MORE INFORMATION ON BUILDERS FIRSTSOURCE.**
