

Granite & Much More

Shannon Gormley with Celtic Granite & Marble noted a few popular trends in the stone industry, including a specific type of stone and a bathroom feature.

“Fantasy Brown marble is definitely the number one seller over the past two years,” Gormley said. “It comes in an array of colors: gray and white, brown and white, some slabs have a coral color, some slabs have a teal color, so it’s very beachy and has a lot of movement. People just love it.”

Another hot item is a twist on the bathroom sink.

“Everybody likes rectangular bowls in their bathrooms,” said Gormley.

Dave Gormley handles all the stone, spending his days in the shop @ Celtic

Granite & Marble creating countertops in granite, quartz, marble, quartzite and onyx.

Shannon said about half her clients

come in with a clear idea of their needs, while others like more guidance and direction.

“Some people who come in here know exactly what they want, whether I have to order it or whether they’ve already picked out their slabs. But there are also people who know they want new countertops but have no idea what they want. I guide them through the process, asking questions about their tastes and their home.”

Since transitioning into new

management in 2017, Celtic Granite & Marble has become a successful and reliable family business for Shannon and Dave Gormley. With more than 30 years of experience in hand-cutting and fabricating stone, the Gormleys and Celtic Granite are the go-to source for both builders and homeowners.
