

Brady Glass Solutions Continues To Be A Leader In The Overall Glass Industry

For 13 years, David and Toshia Brady have been operating their family-owned Brady Glass Solutions business, carving their niche and building their

reputation in Horry County one stellar project at a time. As the area market for glass shower enclosures keeps growing

and evolving, Brady Glass Solutions meets and exceeds the expectations of area home owners.

Glass shower enclosures have been a popular item for years, but the newest trend is larger, more spacious, more dramatic enclosures. "I've done several 12-foot-tall shower doors this year," said David Brady. These showcase projects are mostly in new homes, he added, because they require ample space in the bath area. Involving plates of glass 12 feet by 5 feet and ½-inch thick, the fragile yet heavy and very expensive nature of this kind of project requires a professional touch,

and customers rely on Brady Glass Solutions for their expertise. "We are pioneering this kind of project in the area," said Brady.

Another element of the glass shower enclosure trend is hardware colors. "Brushed gold, brushed bronze, and matte black are the most popular colors for hardware finishes this year," said Brady. "People are pretty much amazed that we can take a project from a

paper to actual, in-person produced," said Brady.

In addition to glass shower enclosures, Brady Glass Solutions delivers on all flat glass needs from custom to commercial projects as well as repairs. At

their on-site manufacturing facility, they fabricate mirrors and tabletops as well as insulated glass units.

"If your window fogs up, you have to replace it, and we are the only company in town that services that project in-house," said Brady. Brady Glass Solutions can typically finish this type of project in one day.

In their showroom, at 3825 Wesley

St. in Myrtle Beach, Brady Glass Solutions maintains a wide variety of glass shower door inventory on site to provide efficient service.

"We keep a lot of hardware parts and pieces in stock, and we keep a lot of stock-size swinging doors in stock," said Brady. "We try to have all these items to stay ahead of the curve so we can keep our lead times down."
